VISHNU KUMAR N

Full Stack & Mobile Developer

vishnusoftwaredev@gmail.com | +91 73970 41862 | Aruppukottai, TN, India | Portfolio | LinkedIn | GitHub

SUMMARY

Results-driven Full Stack Developer with expertise in Flutter, React, TypeScript, and Java. Proven track record of architecting scalable cross-platform mobile apps, optimizing runtime performance, and cutting application crash rates by 45%. Adept at building secure payment integrations, real-time tracking engines, and privacy-focused utility software in Agile environments. Winner of the GDG "Tech for Good" award.

EXPERIENCE

Associate Software Developer — Five9s Solutions, Hyderabad, TS — Apr 2024 – Sep 2025

- Engineered cross-platform client and enterprise applications in a 5-member Agile team using Flutter and React, enforcing clean architecture standards and reducing merge conflicts by 60%.
- Spearheaded runtime performance optimizations and systematic bug resolution, cutting overall application crash rates by 35% and accelerating feature delivery cycles.

Accounts Associate (DoorDash Account) — VXI Solutions, Hyderabad, TS — Sep 2025 – May 2026

- Resolved international customer inquiries via non-voice channels using DoorDash's proprietary internal tools, achieving a 98%+ CSAT rating.
- Investigated billing/order anomalies and executed account adjustments via CRM systems under strict SLAs, maintaining a 95%+ First Contact Resolution (FCR) rate and reducing repeat queries by 20%.

SKILLS

- **Languages & Mobile:** Java, JavaScript, TypeScript, Kotlin, Dart, SQL, Go
- **Mobile Development:** Android, Flutter, Dart, Bloc, GetX, Unit Testing, Widget Testing, Mockito
- **Frontend & Web Development:** React, HTML, CSS, Tailwind, Vite
- **Backend, Databases & Containers:** Node.js, Express.js, PostgreSQL, MySQL, Firebase, Docker, MongoDB, Redis, Kubernetes
- **Dev Tools, Cloud & DevOps:** Git/GitHub, Postman, Cloudflare, CI/CD, VS Code, GitHub Actions, AWS, Digital Ocean
- **Integrations & Methodologies:** Razor pay, RESTful APIs, Agile, Scrum

PROJECTS

Home food — Live — Apr 2024 – Sep 2025

- Architected 3 scalable client applications (Customer, Driver, Vendor) using Flutter and React with structured state management (Bloc/GetX), increasing code reuse by 40%.
- Integrated secure Razor pay checkout flows, achieving a 99.8% transaction success rate across active payment flows.
- Led Agile sprint planning and bug triage with a 5-member team, executing state rebuild optimizations that reduced app crash rates by 45% and boosted session retention by 18%.

Flutter, React, PostgreSQL, Digital Ocean

Blocker App — May 2026 – Present

Creator

- implemented real-time pattern-matching algorithms to block 18+ websites and restricted domains with <10ms lookup latency using offline local storage rules.
- Leveraged resource-efficient background execution strategies and lightweight caching, reducing CPU overhead and background battery drain while ensuring active protection.

Flutter, Dart, Local Storage,

EDUCATION

Master of Computer Applications (MCA) – Computer Application — SNS College of Technology · 8.02 — 2022 – 2024

B.Sc. – Computer Science — Sri Ramasamy Naidu Memorial College · 8.92 — 2019 – 2022

CERTIFICATIONS

- **Android App Development** — Corizo Edtech (2023) - Link

ACHIEVEMENTS

- **GDG "Tech for Good" & "Agent of Change" Award Winner | Google Developers Group (May 2023 – July 2023)** — Architected an award-winning geospatial asset-mapping platform using AI concepts and geolocation data to automate public infrastructure planning.
