@Vishnukumardev

Code Forces:@vishnu__dev

SKILLS

Languages & Mobile:

Java • Android • Flutter • Dart •
TypeScript • JavaScript • Python •
SQL • State Management
(Bloc/Provider) • GIS (Geospatial
Data)

Backend & Databases:

Node.js • Express.js • Django
REST Framework • PostgreSQL •
MySQL • Firebase • ORMS

Frontend & Web:

React.js • HTML5 • CSS3 •
Responsive Design

Tools & Methodologies:

Git/GitHub • PR Workflows (Code
Review) • • RESTful APIs •
Agile/Scrum • Unit & Widget
Testing • CI/CD Baselines •
Payment Integration (RazorPay)

EXPERIENCE

FIVE 9S SOLUTIONS | ASSOCIATE SOFTWARE DEVELOPER

Apr 2024 - Sep 2025 | Hyderabad, TS

Project: Home Food (Food Delivery Platform)

- Architected multi-platform using React and Flutter with State Management for customer, driver, and vendor applications.
- Integrated Razor Pay payment gateway with transaction and secure payment flows.
- Collaborated with 5-member engineering team to reduce crash rate through systematic bug fixes and performance optimization

Project: Agri-IoT (Agricultural Management System)

- Implemented real-time GPS tracking with geofencing for delivery drivers using Google Maps API.
- Converted 20+ Figma screens into pixel-perfect Flutter UI reducing design to development time .
- Implemented Git workflow practices reducing merge conflicts by 60% and improving team collaboration

CORIZO EDTECH | SOFTWARE INTERN | REMOTE

Aug 2023 - Oct 2023 | Bangalore, KA

- Resolved 20+ critical bugs in live production environment affecting 5,000+ daily active users.
- Collaborated with cross-functional team of 10+ developers using Agile methodologies and version control best practices.

OPEN-SOURCE CONTRIBUTION

ZULIP | INDEPENDENT CONTRACTOR/FREELANCER

Oct 2025 - Present | Hyderabad, TS

- **PR Contributions:** Designed and submitted Pull Requests (PRs) for issues that has been given across all open-source contributors that needs prior knowledge of resolving it.
- **UI/UX Optimization:** Developed and refined responsive interface components, enhancing user workflows for complex expense entry, data visualization dashboards, and receipt scanning modules.
- **Collaborative Code Review:** Actively participated in upstream code reviews, debugging performance bottlenecks, and collaborating with a global developer community to improve codebase scalability.

ACHIEVEMENTS & ENGAGEMENTS

GOOGLE DEVELOPERS GROUPS | GIS DEVELOPER

MAY 2023 - JULY 2023 | Coimbatore, TN

- **GDG Coimbatore "Tech for Good" Award Winner (GIS & AI Developer):** Architected and presented a geospatial asset-mapping platform utilizing AI concepts at the Google Developers Group *Tech for Good: Build a Better World with AI* event.
- **Awarded "Agent of Change":** Received the top distinction for demonstrating a data-driven, impactful solution to automate public infrastructure planning using geo-location data.
